Encl: (1) ACN 1/A to NSTM 079 Volume 2 Revision 2
(2) ACN 2/A to NSTM 555 Volume 1 Revision 10
(3) Redline IS/WAS version of ACNs

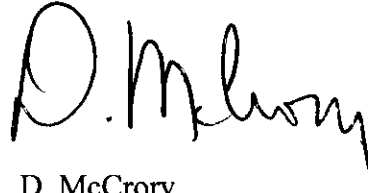

1. This letter provides enclosure (1), Advance Change Notice (ACN) 1/A (NSWC Port Hueneme control number N00024-03-DS03) to reference (a), and enclosure (2), ACN 2/A (NSWC Port Hueneme control number N00024-03-DS02) to reference (b). These ACNs will be incorporated into the next revisions. Please note that NSTM Chapter 079v2r2 was repaginated in recent CD-ROM issues without being re-designated as a new revision. The page alignment herein is based on CD-ROM NSTM019 dated July 2002 and may not match other versions.

2. These ACNs change the description of the surface ship damage control organization, as requested by reference (c). It implements the Flying Squad and Condition II Damage Control (DC) concepts to be consistent with changes which were implemented in reference (d) and which will be incorporation into reference (e). These ACNs also realign the definition of the general DC organization from NSTM Chapter 555v1 into NSTM Chapter 07v2. Enclosure (3) provides a redline IS/WAS mark-up of the change for information.

3. These ACNs do not authorize modification of existing Government contracts, project orders, work requests or allotments. Therefore, requests must be made to cognizant authorities for authorization and funding as may be required to accomplish these ACNs. Cognizant authorities are requested to authorize accomplishment of these ACNs as appropriate.
